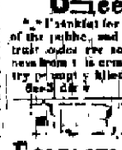
PATENT SELF HEATING SMOOTHING IRON



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of ironing, endorsing a great saving of time and expense. This Iron combines economy, convenience, a ring of labor; and desperately cold coal's worth of ring charcoal supplies fuel for a whole days' constant pressing. Said wheel coal from the stove will, and for the same purpose. It can be used in any room in the open air. Mothers and Tailoresses from are constructed upon the most prin ple, and possess equal superiority.

CITY OF BANGOR.

An Ordinance in addition to an Ordinance further providing for the Regulation of the Police.

SEC. 1—*Be it ordained* by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled,

That annually in the month of March or April, and at such other times as the Mayor and Aldermen may deem it expedient, a number of special Deputy Marshals, not exceeding twenty in all, may be nominated and appointed as is provided in said ordinance, to which this ordinance is in addition, passed March 7th, 1853, and that said Marshals, thus appointed, shall be called "Special Deputy Marshals," and shall be removable at the discretion of the Mayor and Aldermen, and shall each, before entering upon the duties of the office, be sworn as "Special Deputy Marshals," and give bond to the city, with sureties to be approved by the Mayor and Aldermen, in the sum of *Two Hundred Dollars*, for the faithful performance of the duties of his office and the obligations of this ordinance, whereupon said Special Deputies shall possess and exercise, under the direction of the City Marshal, all the powers now or hereafter vested in the same. Said Special Deputy Marshals shall, when on duty, wear a badge with the word "Police" upon their hats or caps.

SEC. 2—*Be it further ordained* That all the special "Deputy Marshals" elected under this ordinance shall be Police Officers, and exercise all the powers authorized by the Act of the Legislature entitled "An Act giving additional powers to Cities," approved June 5, 1850, and shall hold their office, unless removed by the Mayor and Aldermen, until others shall be appointed and qualified in their stead.

SEC. 3—*Be it further ordained*, That no compensation or salary shall at any time be made from the City Treasury to any of said Special Deputies.

Passed April 18, 1854.

CITY OF BANGOR.

IN THE YEAR OF OUR LORD one thousand eight hundred and fifty-three.

An Ordinance additional to an Ordinance entitled "An Ordinance providing for the choice, duties, and compensation of a School Committee.

Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor in City Council assembled—

That the Superintending School Committee shall in addition to the powers with which they are now invested, be authorized and empowered to appoint, from time to time, a Superintendent of Public Schools in the city of Bangor. The person thus appointed shall hold his office during the Municipal year in which he is appointed, unless he shall be removed by the Committee aforesaid with the concurrence of the Mayor and Aldermen, and he shall receive from the city such sum for his services as the Committee shall fix and determine, not exceeding, however, he sum appropriated for the superintendence of the Public Schools. He shall act under the direction and advice of the Committee, and shall devote himself to the business of his station in promoting the order and welfare of the Schools, the care of the School properties and the pages of the Rolls and generally and faithfully perform all the duties pertaining to Schools required of him by the Committee.

"Better be out of the world than out of fashion."
Common Saying.

"So she would put the better of me?
Let her look to it. I am her equal.
Nor will I yield in many virtues,
As she shall find unless—Old Play.

"Well, I declare," said Miss Celeste Smith; so, on her return from a shopping excursion, she entered the sitting room, where her mother was, I regret, that you engaged in the plebeian task of mending a stocking—but there, she didn't expect company in the morning. "Well, I declare, some folks are getting up in the world."

"Why, what do you mean, Cilly?" inquired her mother.

"How often, ma," said Miss Smith indignantly, "must I request you not to call me by that odious name? I assign to you *ex cathedra* as your French teacher used to say."

"Well, well, I'll try to think next time," said Mrs. Smith in a soothing tone; "but what's the news?

"Why, that Mrs. Green, the grocer's wife, has been giving a grand party, at which sixty or eighty persons were present."

"Mrs. Green given a party!" exclaimed her mother. "Well, I am astonished. What in the world set her doing that, I'd like to know; and why, if she must have one, didn't she invite us?"

"I don't know," said Celeste, tossing her head, "nor don't care, for that matter, though it is a little odd. I can't imagine how the vain creature felt, and that little conceited minx of a daughter, that hasn't sense enough to know how homely she is, how they must have swelled and put on airs. Oh, it's so ridiculous.—But ma, there's one thing I've been thinking of."

"What's that?" inquired Mrs. Smith with interest.

"Why can't we give a party? I'm sure we can afford it as well as Mrs. Green, and good gracious, if we couldn't get it up in better taste, I'll give up. Can't you ask pa about it?"

"Well," said Mrs. Smith, considering, "it does seem as if we might have one as well as Mrs. Green, and as long as she didn't invite us, we would leave her out. But I'm afraid your father will think it rather foolish."

"O, well, we'll tease him till he can't help yielding. But there's one thing—we won't call it a party, that's so common; a soiree would sound a much better, and it would show that we know something about polite society and so on. Don't you think so, ma?"

Mrs. Smith assented, for she had all confidence in her daughter's knowledge of society.

At dinner, accordingly, for it was deemed advisable to expedite matters, Mrs. Smith broached the subject to her husband.

"My dear," she began, (there are two occasions when ladies are always sure to use this endearing term, one when they are about to ask a favor—the other when they are on the brink of quarrelling,) "my dear," commenced Mrs. Smith, "Celeste and I have set our hearts upon having a soiree."

A sweet! exclaimed Mr. Smith, in amazement. "What is that? If it is anything in the clothing line, and isn't too expensive, I suppose you can get it."

"O, pa interrupted Celeste, "how can you be so dreadfully ignorant? A soiree is a party—an evening party. It is all the fashion, and everybody that is anybody has them."

"What in the world have we to do with fashion?"

"We must maintain our position in society, and we can't do it unless we do as other folks do."

"I didn't know as we had any position in society, and I am sure I don't care anything about it," returned the perverse Mr. Smith.

"Well I'm sure I do," said his wife. "I don't intend to have that upstart, Mrs. Green outshine me. If she can have a party, I don't see why we should not.

"What's Mrs. Green to us?

"Why, nothing, but then folks will talk, and if they find we won't do as others in our position are doing they will begin to suspect that all is not going on well with you—that your business is dull, or something of the kind. It's always best to keep up appearance."

"But then," said Mr. Smith, who in part yielded to the force of his wife's last argument, "it will be a great expense."

"O no, it need not. Really, it won't be much of anything. You know we can make the cake and such things in the house, and all we shall have to do will be to hire two or three to hand over the things, and perhaps get some ice cream, really, the expense will be but a trifle."

Mrs. Smith having no experience in such matters, really believed what she said, and her husband trusted her.

"Well, well," said he, "have it your own way. —Only you must not expect me to have anything to do with the preparations. You must take it all into your own hands."

This was just what Mrs. Smith and Celeste wanted. They armed themselves at once into a committee of ways and means being firmly resolved upon two things, first to eclipse Mrs. Green, and secondly to do this at as little cost as could be contrived.

CHAPTER II.

Servant. "My lord the banquet waits."
Lord B. "I will be there forthwith."
Beaumont and Fletcher.

The first point to be decided was when the soiree should take place. The next Tuesday was fixed upon for that purpose.

The second related to those who should be invited. This occupied much longer.

"Surely, ma, you wont have that ill-natured old maid, Miss Pinfeather. She's such a malicious, ill-tempered creature."

"That is the very reason I mean to ask her. She will be dreamed with envy, and perfectly miserable if anything goes off well. It will be quite amusing to watch her."

"Very true, ma. You are right. There's the Misses Somegoose, we must have them, for I have heard there's a cousin of theirs, a lawyer staying with them, and so we can invite them all."

"Yes, it will be very proper; I will put them on the list. What is the name of the young gentleman?"

"Fuller. William Fuller, I believe. At least, Miss Tattle told me so last sunday."

We will not weary the reader by inflicting him a party to all the conferences which were held before the weighty question—Who shall be invited? was fully settled. This list grew beyond their anticipations, till it reached one hundred; since Celeste remarked, "there really was not one of them that could be decently left out."

Mr. Smith's clerk was occupied nearly all the next day in making copies of the following note of invitation:

"Mr. and Mrs. Smith will be happy to re-

ceive their friends at the soiree on the evening of Tuesday, the eleventh inst.

Barclay street, Dec. 6.

The notes were dispatched, and now, previous to anxious being settled, the business of equipage preparation commenced.

The services of Black Nelly a cook, in the neighborhood, who professed to be skilled in the mysteries of the kitchen were secured. For the next two or three days Mrs. Smith's kitchen presented a very active appearance. The beating of eggs, stirring up of ingredients, and so forth, and so forth, constituted the chief employment of Celeste and her mother for the time being; the former seemed to be seized with an unusual fit of industry, which can only be accounted for by the exhilaration of giving a soiree."

"How shall we do about the decorations? Shall we buy it at the confectioner's?" inquired Celeste.

"That would be very expensive; I think we can manage to make it ourselves, and you know that will be much cheaper. I have no doubt Nelly knows how to make it."

Nelly, on being asked, hesitated, but at last valued her professional skill too highly to admit that her knowledge on the point was very limited. She therefore answered that she would undertake it trusting to success and good luck for success.

"Have we got any lamps sufficient for the occasion?" inquired Celeste.

"Not enough, but I suppose we can borrow."

"Then as long as we must borrow, why not borrow a chandelier. That would give an air of fashion to the room, and nobody need know but it belongs to us."

"But where can we get one?"

"There's Mrs. Jones has just got one a very handsome one, so I hear, and you know she's the most obliging creature in the world. She'd be perfectly willing to let us have it for one evening, I feel very sure. It will be sufficient to light both rooms at once."

Mrs. Jones' consent being readily procured, it was finally settled that this should be the arrangement of the evening. Mrs. Smith and Celeste were quite elated. They thought everything would pass off in fine style, and already they beheld in fancy their two front parlors brilliant with beauty and fashion. It would be such a triumph over Mrs. Green.

Mrs. Smith's ideas expanded as her preparations went on. She suddenly discovered that the carpets which covered her front rooms looked very shabby—too bad in fact, to remain on any longer. This she represented in such strong terms to her husband, that he though but half convinced, gave her permission to provide new ones.

"It is a ways best," said Mrs. Smith, "when you buy an article, to get a nice one; it is sure to be the cheapest in the end."

On this principle she purchased two Brussels carpets, the price of which nearly startled Mr. Smith from his propriety. As the time was so near at hand, the house for the next few days was a perfect hive of industry.

At length the carpets were finished and put down. Then was discovered that the plain cane-bottom chairs, which before had looked quite respectable, now appeared very much out of place, and presented so great a contrast with the new carpet. So it was found necessary to buy some stuffed chairs of a more fashionable pattern for both rooms, and in addition to these, two handsome centre tables, for Mrs. Smith wished to have both rooms present the same appearance.

Mr. Smith began to wonder when it would all end, and devoutly hoped his wife would never take it into her head to be so absolutely "sweetry."

Of course Mrs. Smith and Celest found it necessary to provide themselves with new dresses.

"They absolutely hadn't anything fit to wear," they said. Dresses were accordingly obtained, had mantua-makers and seamstresses were engaged to get them in readiness, with all the possible dispatch, for the day which was to form an eventful era in the history of the Smiths was close at hand.

Whig and Courier.

Wheeler & Lynde, Proprietors.

THURSDAY, MAY 11, 1854.

☞ The Washington correspondent of the New York Times states that our government has received from Mr. Soble the very unexpected intelligence that the Spanish government refuses compliance with his demands made in our behalf in the Black Warrior affair, which the government was advised by Great Britain to settle without hesitation, and at any cost. I knew little of the fact that the Spanish Cortes so much under the influence of the British government, led to the belief that no difficulty could arise by the refusal of the demands made by our government through Mr. Soule.

The very energetic decree of the Spanish government, just published at Madrid, asserting the determination to suppress entirely the African slave-trade in Cuba, and to make satisfaction to Great Britain, may, perhaps, be looked upon as a concession to that power, in the hope of securing its more cordial aid and support against the United States. Great Britain is fully occupied in the East; and it is not supposed she will risk burning her fingers for the sake of a dependent who scorns her advice.

As the owners of the Black Warrior received their vessel from the Cuban authorities and re-settled or compromised the affair, it is not to be expected that our government will insist on the indemnity demanded. There is, therefore, nothing left in the case, probably, out of which immediate difficulties may be expected to arise. But if Spain persists in refusing to repose in the hands of the Captain General of Cuba, or some other competent person at Havana, the power to treat with us for the adjustment of international questions at issue on the island or in its ports, on the recurrence of any pretended outrage upon American rights there, the President may be expected to recommend the blockade of those ports, or some other equally prompt and efficient measures, to redress the grievance and secure instant indemnity.

Right of the Bible in our Public Schools. By Rev. George B. Cheever, D. D. New York: Robert Carter & Brothers. 1854.

This is a volume of three hundred and three pages, of pleasing exterior, and large, clear, readable print. Its author has nervously, yet strongly seized upon the subject, which in some portions of the country has caused in excitement, viz: whether the Bible shall be excluded from the public schools. The question is ably argued in a great variety of points and the conclusion reached, beyond a peradventure, that Christianity is part of the law of the land, and that the Bible should hold its place in the public schools.

This volume may be found at H. F. Duren's bookstore, near the post-office.

☞ Mr. Washburn, the editor dangerously wounded in a duel at San Francisco, is brother to the member of Congress from this district.

A Word on Facts and Prospects.

The general prospect for business and the increased demand for labor, has given quite a spur to real estate movements, and for several months past much real estate has changed hands in our city at increased prices.

The almost unanimous vote of our citizens in favor of granting the loan of the city credit in aid of the railroad to Waterville and also the up river road from Milford to Lincoln, thus insuring the immediate construction of those roads together with the improvements, which are in progress on the road from the city to Milford, have given increased confidence and a new impulse to real estate.

The demand for dwellings is much increased and the price of rents has gone up, although they have not reached the speculative prices of former years, nor do we care to have them, since excessive rents serve to make it hard for young men and to lessen the number of working men in the city. The present rate of rents will encourage men in securing for themselves homes of their own, while, at the same time, with the present demand for labor, men will be encouraged to come here to abide with success, and to grow up with the growth and progress of the city.

The expectation of the arrival of the iron horse here at no distant day, and the determination of our business men to be up with the times, and of our capitalists to make investments at home and to encourage all business and industrial enterprises already working out favorable results to our city. There is a public spirit in Bangor which, however carefully it looks to the profit of investment, also looks beyond the pecuniary profit to the beauty and adornment of the city, in external appearance, and in its internal character.

There are very hopeful indications for the future of Bangor and we love to make it so. Of the most delightful places of residence in the State, in business, in industrial enterprises, in facilities for the education of children and youth, in social advantages and in religious culture.

The country also is going on improving with greater rapidity than the city, and in the distant interior a very large amount of capital is invested, and is watched and cared for by men of enterprise, of talent and of skill, who will not see it neglected or abandoned. But who will see all enterprises calculated to develop the natural resources of all that region of the State. Under these influences the navigation of the upper waters of the Penobscot in every year improving, industry promoted and farming encouraged.

The business of the city is gradually being brought to shape itself to the exigencies of the country and of the fast times that are rapidly approaching. We greatly enjoy the prospect of the growing city, energy and prowess of our city, and it will be the earnest endeavor of the new hands who have assumed the direction of the Whig and Courier to anticipate the public demands and to keep their readers fully posted up in all matters of interest to commercial, mechanical, mercantile, municipal, political, and family readers.

The bright, genial, active, spring time has come and every man is busy and feels under the necessity of taking the powers and pushing business ahead with the greatest force.—May every one enjoy the season and prosper in it, doing good and getting good, and thus advance the general welfare.

The Methodist Book Concern.

Judge Carroll of the United States Supreme Court has made a decision on an appeal from a decree of the Circuit Court of the U. States in the District of Ohio, in relation to the rights of the Methodist Episcopal Church South and the Methodist Episcopal Church North, in the case of what is known as the Methodist Book Concern, at Cincinnati. The history of the property in question is given succinctly in the decision. It had its origin at a very early day, from the voluntary contributions of traveling preachers in the connection of the Method at E. Church, and though small at first is now a source of great profit. Its object was, and we believe it is, to relieve worn out traveling preachers, superannuated and worn-out preachers, and the widows and orphans of the preachers. Until the year 1844, it was a source not only of profit, but of gratification to all for it was benefit it was designed. But during a few years, differences and disagreements having sprung up in the Church between what was called the Northern and Southern members, in respect to the administration of the government with reference to the ownership of slaves by members of the Church, a separation took place, and in the division of agencies concerning the fund of the Church South, to any share in the fund. The case has a ready commanded a large share of public attention, and in this decision on the appeal will be looked in with great interest. The decision of the Judge is that the preachers, &c., of the Church South are entitled to their share of the property, and a decision will be entered to carry this decree into effect.

☞ Some of the citizens of Louisville, Ky., seem to testify their feelings towards Mr. Wolfe, for his abuse of them in a journal by presenting him with a pewter mug, with inscriptions denoting it to be the gift of "the bloodhounds of Louisville," the name by which Mr. Wolfe spoke of them. The Louisville Courier states that the various committees appointed to canvass the city are solicit subscriptions for a monument to the memory of Prof. Butler, and a pension for his widow and child, are meeting with great success.

☞ A telegraphic station has been established at Camden. This is one of the most romantic and beautiful villages on the Penobscot bay and is a favorite summer resort for many of our citizens. The means of ready communication by telegraph and of facility of travel by the several steamboats will serve to make this place more choice than ever as a resort for health, recreation and pleasure.

Fatal Accident in a Church.

Ed. Pa. May 8.

During the morning service yesterday, the Catholic Church was so very crowded, in consequence of the presence of the Bishop, that the gallery gave way, precipitating the occupants to the ground. One person was instantly killed, and several others were badly injured. Three of whom are not expected to recover.

ARRIVAL OF THE

CANADA,

AT HALIFAX.

HALIFAX, TELEGRAPH OFFICE, May 10th, 1854.

The steamship Canada arrived at Halifax at 7 o'clock, Wednesday afternoon, with 260 passengers.

The news concerning the war indicates increased vigor on the part of the allies. Twenty thousand French and eight thousand English had landed at Gallipoli.

No event of importance had occurred.

A sanguinary engagement had occurred near Kalafat, but without decisive result.

A defeat of the Russians is reported at Tcheknavoda, and that they have evacuated Little Wallachia.

The Russian force is withdrawn from Kalafat.

Sir Charles Napier was at Stockholm April 27th. His fleet was about fifty miles off.

The allied fleet was at anchor off Odessa 26th.

No tidings from the steamship City of Glasgow.

MARKETS.

The Circulars very much, but Richardson's circular, which we deem reliable, quotes the middling and lower qualities of cotton as having declined a sixteenth of a penny. Fair grades advanced an eighth.

BREADSTUFFS. Dennistown reports the market dull at a declining tendency. Flour declined 6d to 1s. Wheat 2d and corn 1s to 2s. Western flour, 37s to 37s 6d; Ohio, Straight State and Baltimore 37s 6d to 38s; good Ohio 37s 6d to 39s. White wheat 11d 6d to 12s 9d; red and mixed 11s 9d to 11s 6d.—Western white corn 39s to 40s; Western yellow 38s 6d to 40s.

PROVISIONS. Gardner reports beef unchanged with limited business and a deficit in imports of 1700 bbls.; in pork moderate business at previous rates, market closing firm.

American securities. Bell and Son report American securities unchanged with limited transaction.

FROM LOWER CALIFORNIA.—THE RESCUE.

NEW YORK, May 10th.

The United States sloop of war Portsmouth, was at Ercinada April 4th, on her way to Acapulco. A letter from one of her officers states that Col. Walker, when last heard from, was within twenty miles of the Colorado, with forty of his men, *en route* for Texas.

The colonic ship Ericsson was nearly floated yesterday, when some parts of the gearing give way, and she again sunk and filled. The damage thus far to the owners and insurers is estimated at $50,000.

From Washington.

WASHINGTON, May 9.

It is intended to close the debate on the Nebraska bill on Thursday, after which the five minutes rule will prevail. It is said that many members friendly to the bill declare they will not vote for it unless the Clayton clause is inserted. It is probable the House will sit during the whole of tomorrow night. The friends of the bill are determined that the contest shall not be unnecessarily delayed.

The anti-Nebraska Northern and Western members are receiving hundreds of letters urging them to defeat the bill in any way and at all hazards.

WASHINGTON, May 10.

Mr. Richardson notified the House to-day, that tomorrow morning he would introduce a resolution terminating the debate on the Nebraska bill, the time for which would depend upon the opponents of the bill. If they wished to go on and debate, he was disposed to allow them till Monday, when the Pacific Railroad bill will be the special order of the day. The House then went into Committee on the Nebraska bill.

The Administration is earnestly engaged about Spanish affairs. Warren Winslow, the messenger despatched to Spain about the Black Warrior, is thereby expected to return with the decision of the Spanish Court.

SECOND DESPATCH.

In the Senate, a report was made recommending the purchase of Mount Vernon.

A motion to print the Agricultural Report of the Patent Office was agreed to.

Mr Hunter made an ineffectual motion to take up the vetoed indigent insane land bill.

The House debated the Nebraska bill until adjournment.

NEW YORK MARKETS.

FLOUR—firmer. Common to Straight State $8.50 to $8.75. Common to good Ohio, $8.62 to $8.69. Southern, buoyant. Sales 500 bbls. Mixed to good brands Baltimore, $8 to $8.25.

GRAIN.—Wheat, nominal. Corn lower.—Sales 20,000 bushels. Mixed, 81 to 82 cents; White, 82 to 83; Yellow, 83½ to 84; Round Yellow, 83 to 84.

PROVISIONS—Pork, heavy. Sales 150 bbls. Mess, $14.25; Prime, $13,12½ to $13,25.—Beef, firm.

The New Mexican Treaty—The Nebraska Bill.

WASHINGTON, May 7.

The official copy of the new treaty with Mexico was only communicated to General Almonte yesterday. He immediately despatched two messengers with it, so as to meet the steamer of the 14th at New Orleans.

The Fulton has left the Navy yard here for Norfolk, where she will await the arrival of General Gadsden, who will take the original copy of the treaty to Santa Anna.

The friends of the Nebraska Bill held a caucus last night, when they decided to oppose all amendments except the striking out of the Clayton clause.

An exciting debate is expected to-morrow.—Colonel Bissell, who was expected to make a strong speech against the bill is dangerously sick.

A change of six votes in favor of the bill is generally conceded, but still its opponents are sanguine that their chance is best on any vote which may be taken to-morrow.

More Indian Troubles.

ALBANY, May 8.

By telegraph from Independence, May 14th, it is understood that the Salt Lake Mail had arrived. The Indian troubles still continue.—The Crow and other Indians had driven off all the whites who had established bridges and ferries on the north of Platte and Green rivers. They declare their intention of carrying on business and supplanting folks to themselves.—It is rumored that the Pawnees had stopped several freight and emigrant trains, robbed them and left the travellers destitute and starving.

☞ The Montreal Herald of Saturday, says that the ice in the St. Lawrence river "has completely disappeared, and the navigation is open below Montreal to the sea."

XXXIIId CONGRESS.

WASHINGTON, May 8.

SENATE.

Mr. Douglas presented a memorial from 604 clergymen of the North Western States against the Nebraska bill. On presenting the memorial which is a copy of the Chicago memorial, Mr. D. made a long speech, deprecating the charge alleged against him of having insulted the language of the memorial in his letter and the reply thereto.

The Chair laid before the Senate a statement from the Secretary of the Treasury, of the amount of stocks and other Government securities redeemed since the 3d of March, 1853. The whole amount of stocks redeemed, is $18,813714; premium paid on same $2,652,902. Amount of stock issued and authorized to be issued, including the Texas indemnity, Treasury notes, &c., for which the U. S. is liable, outstanding, $50,316,000.

The reading of the Income Land Bill was postponed to Wednesday.

The Homestead Bill was postponed to Tuesday next. Adjourned.

HOUSE.

Mr. Richardson moved to go into Committee of the Whole, avowing his intention to be, should the motion succeed, to move to lay aside all preceding business, and take up the Nebraska bill. Carried by a vote of 109 yeas to 88 nays.

The House then went into Committee, Mr. Old in the Chair.

After some discussion, all the preceding business, including the deficiency bill, was laid aside by an average vote of about 98 to 33 on each bill and after some tumultuous proceedings, and several ineffectual motions for the Committee to rise, the Nebraska Sanders' bill was taken up, when Mr Richardson said he proposed to offer a substitute for the bill which would be substantially the Senate bill with the omission of the Clayton amendment, and the addition of a few other immaterial amendments.

A debate ensued, in which Mr. Hubbard supported the bill, and Mr. Lyons of New York opposed it in a long and characteristic speech, during the delivery of which he was frequently applauded.

A motion to lay the Nebraska bill on the table was defeated by a vote of 103 to 85.

NOTICE TO MARINERS.

Nantucket New South Shoal Light Vessel.

A Light Vessel will be placed during the ensuing month (May, 1854) to mark the New South Shoal off Nantucket, and to guide vessels clear of its eastern part, in that vicinity.

The vessel will be fitted with two lamps, painted yellow, whose exact height, with an open work, oval, black lantern, 5 feet in diameter, at any one season of 12 feet from the water line.

The hull of the vessel will be Red, with "Nantucket South Shoal" painted in large white letters on both sides.

The length of the vessel is about 100 feet; breadth of beam about 25 feet; height of gunwale, above water, 11 ft; burden 250 tons.

Two lights (one on each mast) will be exhibited at an elevation of 44 fee above the level of the sea, each provided by 8 Argand and fountain lamps and parabolic reflectors, and should be seen, in good weather, from an elevation of 15 feet above the water, at 4 distance of from 12 to 13 nautical miles.

During thick or foggy weather a heavy bell will be kept constantly ringing.

The vessel will be placed in from 12 to 15 fathoms water, about one, or one-and-a-half miles to the southward of the Southern extremity of the New South Shoal.

The position will be in about

Lat 40deg 32min North; Lon 69deg 31min 30sec W from Greenwich.

In planning the Light Vessel, the following bearings and distances will be found to be sufficiently accurate to guide navigators in shaping their course from positions near it

To centre of Old South Shoal, (Mag) N by E dist 8 miles.
To Town Ness's Buoy, (Mag) N 28½ W, dist 21 "
To Brick Island Ledge, (Mag) WNW dist 28 "
To Li ves off Sandy Beach, (Mag) W dist 180 "

Variation of the compass, 8 deg 18 min West.

Vessels bound to Boston Bay or to that vicinity, when the weather is moderate, may, after passing the Light vessel, steer an ENE course for 18 miles, having Fishing Rock on the port hand, Hendlopens N by WbW, course for about 38 miles will bring up with the Chatham Light.

The attention of mariners is particularly invited to the setting of the current in the vicinity of these Shoals, as shown by the Coast Survey Charts, and it must not be forgotten that Compass courses cannot be depended upon without having regard to the time of tide and its set.

Notice will be given of the precise time when this vessel will be placed at her station and the lights exhibited, with any changes that it may be found necessary to make thereafter.

Dr. Langley's Root and Herb
BITTERS.
A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies, sure to do them good.
SPRING HAS COME.
Read, consider, reflect! and know that after being shut up to confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the Blood with retained humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Languor, and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—they are one or two bottles. They always do good and never hurt. Let each and every one in your family and child have a bottle at only 25 cents for a pint, 37½ cents for a quart bottle.
Now Nature, herself, is sure to give a hint, when she causes the torment of the stomach to cease, from Carpet Baggers that bear to the grave, Jaggle, Cholera Morbus or Dysentery all may save.
Therefore, scarcely a disease we can name, in which the Root and Herb Bitters have not relieved and cured.
And so safe is their action they cannot do harm. While they strengthen the system and restore a healthy appetite, they purify the blood and impart a clear complexion to the skin. No person should be without this medicine in the house during the months of July, August and September, as during this season of the year Cholera Infantum, Dysentery, Diarrhœa, Cholera Morbus, and other Bowel Complaints are prevalent, and the Root

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.

Men in such stations as ours we voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not want to be humbugged by false facts, nor over-state their convictions. Judge then whether this is not the medicine to trust when you must have relief for the throat or lungs; judge, too, whether every family ought not to have it by them as a safeguard against the ever-where prevailing enemy, which steals with fatal frequency upon almost every flock, and carries off the aim from many a home!

Jackson, C. H., Jackson City, O., 20th Nov., 1853.

DR. J. C. AYER—Sir: The Cherry Pectoral you manufacture, imparts effects in the cure of four boys we have under our care, of three of them in the most astonishing degree with the happiest effects. The parents are grateful beyond measure, and I am satisfied that your medicine has been the instrument of saving their children from the grave. I am satisfied that it is the best medicine for children in existence, and I am glad to add my testimony to the many you have received in favor of your invaluable remedy.

Yours, truly, JOHN H. HELLOGG, M. D.

What I set remains to convince the most incredulous that the *Cherry Pectoral* is entitled to all the superlative encomiums which have been bestowed upon it, viz: an unequalled remedial agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such, and we submit it to the people, believing that its virtues will fully maintain its reputation.

KENNEDY'S

The Greatest of the age!

DR. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly erupt ions of the skin.

Two to three bottles are warranted to cure the worst species of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst cases of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing long as improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing upon the pastures, and oftentimes upon the walls, should cure every humor in the system, just it is now a fixed fact.—If you have a humor it has to go. There are no ifs nor ands about it, nothing some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever known in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

Consumption is one subject to a sickly cachymy to the will always cure it. It gives great relief in catarrh and disease. Those who have taken it have been positive for years, and have been regulated by it. Where the body is sound it works quite slowly, but where there is any derangement of the functions of nature, it will cause very singular feelings but you must not be alarmed—they always disappear from four days to a week. There is never a bad result from it—on the contrary, when all is clear, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change in diet ever necessary. Eat the best you can get, but enough o' it.

ROXBURY, Sept. 2, 1853.

This is to certify that Dr. H. HAY, Druggist, Portland, is the duly AUTHORIZED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

(Signed) DONALD KENNEDY.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

BOSTON, Jan. 5, 1853.

Having had occasion to observe that many persons afflicted with Hernia, have suffered much from the want of a skilful workman in adapting the Trusses to the peculiarities of each case, I have taken pains to superintend the construction of those of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Wadsworth. After some months of observation I this week, I am well satisfied that Dr Foster is well acquainted with the peculiarities of these instruments, and possesses a workmanship in the variety of cases which I meet. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, a skilful and important person in the manufacture and fitting of Trusses. We have employed him (some of us for several years) and therefore speak from knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, as our opinion, equal, if not superior, to any manufacturer of the article. The Misses Drs. Gideon Foster, of Charlestown, was master of the Four-hours in that town) for upwards of twenty four years, during which period Mr. Foster was called into it for the opportunity, and made application of Trusses in a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that no great excellence or ease is to be obtained in the body, and therefore the services of an ordinary mechanic only make a Truss, but those of a skilful practitioner can apply to each a manner as to facilitate, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly mastered this knowledge. The late Surgeon of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we have expressed.

It had its origin in the forests

THE RED MAN, famished in Nature, has supplied a remedy for all the ailments originating in long and severe Medicines. This fact has been acknowledged by those among Who have tried

Dr. Hart's Genuine Indian Salve.

Every mother with children, and all heads of families should keep this in the house and have it handy in case of accident.

Indian Salve cures Ulcers or Fever Sores.

M. Ezekiel Wood of Gorham, Me., who for thirty years has been troubled with a very bad Ulcer, never more upon his ancle, which has at times been so inflamed and swollen that the skin would crack open, and the pain so intense as to deprive him of rest night and day, by the use of the Indian Salve, was pronounced to be safe by those who supplied him with perfect ease and comfort.

Dr. Andrew Hodgdon, of Falmouth, who has used the Indian Salve for a very bad Scrofulous sore, says it gives him more comfort than all the remedies he has ever applied. It relieved the inflammation, subdues the pain, and enables him to attend to his business as usual.

Indian Salve cures Piles.

A man in Boston was speedily cured of a severe attack of the painful disease by a few applications of the wonderful Salve. Another Gentleman in Portland, says it gave him instant relief in a case of Piles of long standing.

Indian Salve cures Scald Head.

A boy in Lowell was cured of Scald Head, by the Indian Salve after doctor after doctor had tried medicines had failed. Another in Solon was cured of the awful malady after four boxes of Dr. Hart's Healing Ointment, and many other remedies had been used, with no good results. A child in Portland was cured of a very bad case of Scald Head by using one box

Indian Salve cures Poisoned Limbs.

Two boys in Scarborough were cured of bad sores on their legs occasioned by being severely poisoned.

Indian Salve cures Piles.

A gentleman in Portland had his hand very severely burned with phosphorous, and after trying many remedies with no good effect, was entirely cured with one box of Indian Salve. In case of Burns, if the Indian Salve is applied immediately it draws out the fire and prevents blistering, and heals at once.

Indian Salve cures Cuts and Bruises.

Mr. E. G. Ingalsbe had his thumb cut off by the frame, and says on applying the Indian Salve the pain subsided and healing took place at once

Indian Salve is the best article in the World for Boils.

Mr. D. G. Plummer, 14 and 15 Market Square, Portland, used this excellent Salve for Boils, and says he utilizes its inflammation as it will stop one to any Salve he ever used.—Mr. Joseph Diamond lived for a very painful Boil, and says there is no remedy equal to it for painful sores.—Prof. Crouch, of Portland, used this celebrated Salve for a bad sore, and says it is a remarkable remedy. So says every one that uses it.

Indian Salve is highly spoken of by all who have used it.

In no case does it fail to subdue inflammation and pain, and restore to perfect soundness the most angry looking wound.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public, for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known to medicine as being possessed of healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of the delicate parts of the lungs is effected.

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which itself heretofore in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine; but it is not deemed necessary. The fact that from the very first introduction of the God Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious disease.—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs. Female complaints, &c., &c. Indeed, very few are the diseases in which Dr. J. C. Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well who is a corrective habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Fever with symptoms, and Bilious derangements. They all tend to lucklife or produce the deep seated and formidable distempers which load the hearse all over the land. Hence a reliable family physician of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

Prof. Valentine Mott, the distinguished Surgeon, of New York City.

Dr. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Isa L. Moore, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. G. Southwick, Esq., one of the first merchants in New York City.

C. A. Davis, M. D., Surgeon and Surgeon of the United States Marine Hospital at Chelsea, Mass.

Their composition, we could give many hundreds, names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon the sick.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded on the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and concentrated together in such a manner as to insure the best results. Each ingredient of system of composition for which it has been found in the Cherry Pectoral and Pills both, to produce a more effectual remedy than if hitherto been obtained by any process. The cause is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious quality; by this, each is in dividual virtue only that is desired for the cure or effect is present. All the inert and unnecessary qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expected that any medicine should be taken under the special care of the attending Physician, in order to be considered properly judged of, a remedy without knowing its composition, I have supplied the accurate Formula by which both the Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any such who have not received them, they will be promptly forwarded by mail on this address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their power consists in their mystery. I have no mystery.

The composition of my preparations is fair open to all men, and all who are competent to judge on the subject, freely acknowledge their confirmation of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same of my Pills, and every mail we receive, testifying to cures of this class, which seem almost miraculous were they not substantiated by persons of such high character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

Prof. Valentine Mott, the distinguished Surgeon, of New York City.

Dr. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.
